General Description

MAX3221EUE is a type of RS-232 transceiver IC (integrated circuit) manufactured by Maxim Integrated.

Features

- Operates from a single 3.0V to 5.5V power supply
- Provides $\pm 15\text{kV}$ ESD (electrostatic discharge) protection on transmitter outputs and receiver inputs
- Has a data rate of up to 1Mbps
- Includes a shutdown mode for power management
- Has a small 16-pin TSSOP (thin shrink small outline package) package

Application

- Communication between microcontrollers and PCs
- Industrial automation and control systems
- Instrumentation and measurement equipment
- Medical equipment
- Point-of-sale terminals and other retail equipment
- Networking equipment
