General Description

MAX335EWG is a specific electronic component manufactured by Maxim Integrated, which is a triple SPDT analog switch.

Features

It has three normally closed (NC) switches that can operate from a single power supply voltage range of +2V to +12V.

It has a low on-resistance of 45 Ohms at a +5V supply voltage.

It has a low leakage current of 0.5nA (typ) at a +25°C temperature.

It can operate over a wide temperature range of -40°C to +85°C.

Application

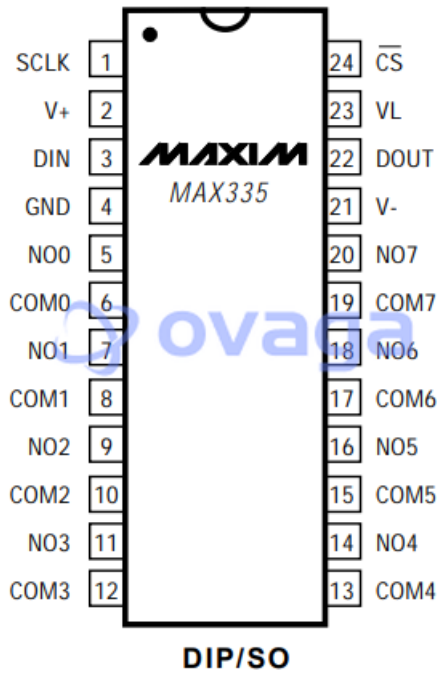

Audio and video signal switching

Battery-powered equipment

Instrumentation and measurement systems

Portable devices

Communications equipment
