General Description

RC28F320J3D-75 is a flash memory chip manufactured by Intel Corporation. Here are some of its features:

Features

- It has a storage capacity of 32 Megabytes.
- It uses NOR flash memory technology.
- It has a supply voltage of 2.7V to 3.6V.
- It has a maximum clock frequency of 75 MHz.
- It has a sector erase time of 20ms and a chip erase time of 100ms.
- It has a typical access time of 70ns.

Application

- It can be used in embedded systems and other electronic devices for storing firmware, boot code, and other essential software.
- It can be used in networking equipment for storing configuration data and firmware.
- It can be used in consumer electronics such as digital cameras, portable media players, and set-top boxes for storing photos, videos, and other media.
