## General Description

TE28F128J3C150 is a flash memory product manufactured by Intel (now Micron Technology) with a capacity of 128 megabits (16 megabytes). It is commonly used in embedded systems, telecommunications equipment, and networking devices.

## Features

Single power supply voltage: 2.7V to 3.6V

Organization: 16M x 8

Access time: 150ns

Page size: 64 bytes

Erase block size: 128K bytes

Programming voltage: 12V

Endurance: 100,000 cycles per block

Data retention: 20 years

## Application

Network switches and routers

Industrial automation equipment

Automotive electronics

Set-top boxes and digital TVs

Medical devices

Telecommunications equipment
