

8 Bit MCU, High Performance Flash, 8051 Family AT89C51 Series Microcontrollers, 60 MHz, 32 KB, 1 KB

Manufacturers	Microchip Technology, Inc
Package/Case	PLCC-44
Product Type	Embedded Processors & Controllers
RoHS	Rohs
Lifecycle

[RFQ](#)

General Description

High-performance, 8-bit microcontroller with 32KB flash. It retains all features of the 80C52 with 256 Bytes of internal RAM, a 9-source 4-level interrupt controller, and three timer/counters.

It features a programmable counter array, an XRAM of 1024 bytes, hardware watchdog timer, keyboard interface, SPI interface, versatile serial channel that facilitates multiprocessor communication (EUART), and a speed improvement mechanism (X2 mode).

We recommend implementing an external brown-out to prevent any flash/EEPROM corruption during power-on or power-off.

Features

CCPower Supply

Loader
