General Description

JS28F256P30T95 is a flash memory chip made by Intel Corporation. It is a 256-megabit (32-megabyte) device with a page size of 4 kilobytes, a block size of 64 kilobytes, and a supply voltage of 2.7-3.6V. It uses a parallel interface and operates at a maximum clock frequency of 50 MHz.

Features

High-speed performance with access times as fast as 70 ns

Low power consumption in standby and read modes

Erase Suspend/Resume capability for efficient erase operations

Advanced Command Set for enhanced functionality

Application

Embedded systems, such as industrial control systems and automotive applications

Networking and telecommunications equipment

Digital set-top boxes and media players

Consumer electronics, such as digital cameras and gaming consoles

Medical devices and equipment
