

Remote 16-bit I/O expander for Fm+ I2C-bus with interrupt and reset, I/O Expanders, Repeaters & Hubs 16BIT I2C FM+ QBGPIO INT-RS PU

Manufacturers	<a href="#">NXP Semiconductor</a>
Package/Case	SOT-355
Product Type	Interface ICs
RoHS	Rohs
Lifecycle

## General Description

PCA9673PW is a 16-channel I/O expander with an I2C-bus interface. It is a type of semiconductor device produced by NXP Semiconductors.

## Features

16 channels of I/O expansion

Low standby current consumption (less than 1 uA)

2.3V to 5.5V supply voltage range

I2C-bus interface supports up to 400 kHz

Open-drain interrupt output

Internal power-on reset

ESD protection exceeds 2000V HBM per JESD22-A114 and 1000V CDM per JESD22-C101

## Application

Industrial control systems

Audio and video equipment

Home automation systems

Power management systems

Consumer electronics
