General Description

TDA7266S is a dual bridge amplifier IC designed for audio applications. It is manufactured by STMicroelectronics, a leading semiconductor company.

Features

Dual bridge amplifier with a supply voltage range of 8 to 18V

Output power of 7W per channel at 14.4V/4Ω

Low external component count

Thermal protection and short-circuit protection

High channel separation and low distortion

Standby and mute functions

Application

TDA7266M

TDA7266SA

TDA7266D

TDA7266B

TDA7266N
